
Is it possible to combine movement, pleasure, epidural electrical stimulation and rehabilitation?

Sébastien Tobler*¹

¹Sébastien Tobler – Suisse

Résumé

Testimony of a quadriplegic engineer, Sebastian Tobler, involved since middle 2017 as a patient in research on the epidural electrical stimulation of professors Jocelyne Bloch and Grégoire Courtine. Sebastian Tobler is also the inventor of the Go-Tryke Easy, a three-wheeled bicycle that allows the movement of arms with legs and co-founder of GBY (Go By Yourself).
